PROFESSIONAL SUMMARY

Highly motivated Software Engineer with a passion for full-stack development, scalable system architecture, and solving complex real-world challenges. Versatile and adaptable, with a strong commitment to delivering robust, user-focused technology solutions across diverse platforms. Eager to contribute technical expertise, leadership, and innovative thinking to dynamic, team-building products with global impact.

WORK EXPERIENCE

Software Engineer

MocDoc, Chennai, India

June 2022 – Present

- Built 5+ scalable web applications using Erlang, Django, and JavaScript.
- Reduced API response time from 2s to 0.8s for critical healthcare workflows.
- Refined and maintained **cloud-based, multi-tenant SaaS applications** for healthcare workflows.
- Created RESTful APIs following **microservices and service-oriented architecture principles**.
- Applied machine learning models to support data-driven decision-making in healthcare workflows.
- Improved system reliability and performance by optimizing backend logic and database queries for high-concurrency workloads.

PROJECTS AND CERTIFICATIONS

E-Commerce Platform

- Developed a full-stack food delivery app with Node.js/Express backend and MongoDB, handling 5K+ user transactions.
- Integrated Razorpay payment gateway supporting credit/debit cards, UPI, and wallets with 100% transaction.
- Implemented JWT authentication and role-based access control (admin/user) for secure operations.
- Designed a responsive UI with Bootstrap 5 featuring real-time cart updates and order tracking, reducing bounce rates by 15%.

CRUD Application

- Built a RESTful API with Express.js supporting CRUD operations for 10K+ user records with 95% uptime.

- Enhanced MongoDB schemas with indexed queries, improving read/write speeds by 35%.
- Implemented input validation and error handling, reducing malformed requests by 40%.
- Added PDF report generation using Node.js libraries for admin dashboards.

Full Stack Web Development Certification - Corizo

- Expanded dynamic web applications using HTML5, CSS3, JavaScript, and jQuery.
- Built and deployed full-stack projects with Node.js, Express.js, and MongoDB.
- Gained hands-on experience with React.js for creating interactive front-end interfaces.
- Learned best practices for version control (Git), debugging, and responsive design

SKILLS

- HTML5, CSS, JavaScript, jQuery, Erlang, Django
- Python, Tableau
- Node.js, React.js, MongoDB, Express API
- C, C++

EDUCATION

Master of Technology (M.Tech in Data Science and Engineering)

Birla Institute of Technology & Science, Pilani, India

Graduated: 2025

Bachelor of Engineering (B.E in Mechanical Engineering)

Easwari Engineering College, Chennai, India

Graduated: 2020
