PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience developing and maintaining enterprise healthcare SaaS applications. Experienced in backend development using Erlang and frontend development using JavaScript, jQuery, HTML, and CSS. Skilled in REST API development, production bug fixing, feature implementation, debugging, and collaborating with cross-functional teams. Completed M.Tech in Data Science and Engineering from BITS Pilani while working full-time. Seeking Software Engineer opportunities where I can contribute to scalable applications and continue growing technically.

PROFESSIONAL EXPERIENCE

Software Engineer

June 2021 – Present

MocDoc, Chennai

- Developed and supported 10+ healthcare SaaS modules using Erlang, JavaScript, HTML, CSS, and jQuery, supporting daily operations across multiple healthcare workflows.
- Designed and implemented 20+ REST APIs to support new application features and seamless communication between application modules.
- Resolved 100+ production issues across backend and frontend modules, improving application stability and reducing recurring customer-reported defects.
- Delivered 15+ feature enhancements based on customer and product requirements, contributing to continuous product improvements.
- Collaborated with cross-functional teams including Product, QA, and Support to deliver multiple production releases with timely issue resolution.
- Optimized backend business logic and kept code reusable and clean across multiple production modules, improving maintainability and reducing defect recurrence.
- Participated in the complete software development lifecycle, from requirement analysis to deployment, contributing to continuous product releases.

Graduate Engineering Trainee

April 2020 – April 2021

Friends Metal Ltd, Chennai

- Operated and supported 1-2 CNC machines, contributing to a production output of 1,000+ units per month..
- Worked closely with the supervisor to uphold quality standards and follow engineering process requirements.
- Kept the transition-into-software-engineering line as is.

TECHNICAL SKILLS

Languages: JavaScript, Erlang

Frontend: HTML5, CSS3, JavaScript, jQuery

Backend: Erlang, REST APIs

Database: SQL

Tools: Git, Postman, Visual Studio Code

PROJECT EXPERIENCE

Healthcare Product Development

- Developed new software modules for healthcare management applications.
- Designed REST APIs to support application functionality.
- Implemented frontend enhancements using JavaScript, HTML, CSS, and jQuery.
- Fixed production defects and optimized existing workflows.
- Worked closely with QA and Product teams during releases.

EDUCATION

M.Tech in Data Science and Engineering

2023 – 2025

BITS Pilani (WILP)

Bachelor of Engineering in Mechanical Engineering

2016 – 2020

Easwari Engineering College

CERTIFICATION

Full Stack Web Development Certification

Corizo

STRENGTHS

- REST API Development
- Backend Development
- Debugging and Production Support
- Feature Development
- Problem Solving
- Team Collaboration
- Adaptability
